

Company Overview

GulfFast (Arabian Gulf Fast Contracting Co.) is a direct rental supplier of heavy equipment and industrial manpower in Saudi Arabia, headquartered in Al Khobar since 1999. GulfFast primarily deploys its own owned equipment fleet and directly-employed workforce, sourcing through a partner network only to fill gaps — remaining the direct contracting party throughout, not a brokerage or staffing agency.

Services Overview

GulfFast operates across two service lines: Equipment Rental (85 categories, spanning earthmoving, lifting, power, transport, and site support machinery) and Manpower Supply (22 categories covering certified trades, engineering, and site support personnel). Equipment is available as bare-rental (dry-hire) or fully operated & maintained (wet-hire) with a certified operator.

Certifications

GulfFast's workforce includes individually Aramco-approved and TUV-certified trades in specific categories — rigging & scaffolding, QA/QC & inspection, painting/coating & blasting, and heavy equipment operators. Certification status is listed per job title on gulf-fast-rentals.com; not every role in every category carries these certifications.
